Summary

Final-year Bachelor of Science (BSc) Information Technology student at North-West University with a passion for web development and building practical software solutions. Experienced in developing web applications, business systems, and client-focused websites through entrepreneurial ventures, freelance projects, and personal development. A quick learner with strong problem-solving skills, committed to writing clean, reliable code and continuously expanding my technical knowledge while pursuing a career in software and web development.

Professional Experience

Founder & Web Developer

01/2023 – Present

JulukaWorx

Co-founded JulukaWorx, an online platform focused on connecting job seekers, employers, and local businesses.

Contributed to the development of the employment platform, where employers and job seekers can create profiles, connect, and search for opportunities. Led the design and development of the JulukaWorx Directory, a business directory that helps users discover trusted local businesses across different categories.

Responsible for planning, developing, testing, maintaining, and continuously improving both platforms, with a strong focus on creating reliable, user-friendly, and responsive web applications that deliver a positive user experience.

Founder & Web Developer

01/2022 – 12/2024

ExcuTech

Founded ExcuTech, a software and web development company focused on designing and developing custom web applications and business systems. Worked closely with clients to understand their operational requirements and deliver solutions that improved efficiency and supported their business processes.

Responsibilities included gathering client requirements, designing and developing web applications, maintaining business systems, troubleshooting technical issues, and delivering reliable, user-focused solutions.

Barista & Print Shop Assistant

01/2021 – 12/2022

CoffeeTree Potchefstroom

potchefstroom

Worked as a part-time Barista and Print Shop Assistant while studying. Assisted customers with printing, copying, scanning, and document preparation, while also preparing coffee and other beverages in a fast-paced environment.

Provided friendly customer service, handled daily operational tasks, and developed strong communication, time management, and teamwork skills through working in a busy customer-facing role.

Education

Bsc.IT
NWU

Projects

<https://www.julukaworx.com/>

JulukaWorx Employment Platform

Co-developed an online employment platform that connects job seekers with employers. The platform allows users to create profiles, search for job opportunities, and connect with potential employers through an intuitive and user-friendly interface.

<https://www.jwlisting.co.za/>

JulukaWorx Directory

JulukaWorx Directory

Designed and developed an online business directory that helps users discover trusted local businesses across different categories. The platform enables businesses to submit their information for review before being published, improving their online visibility.

Technologies: React, TypeScript, Firebase, Tailwind CSS

<https://www.enduraconstruction.co.za/>

Endura Construction Website

Endura Construction Website

Designed and developed the official website for Endura Construction as a freelance project. Created a responsive and professional website that showcases the company's services, completed projects, and business information while providing an easy way for potential clients to make contact.

Technologies: React, TypeScript, Tailwind CSS
